

2006 Siduri Keefer Ranch Vineyard Pinot Noir

The Keefer Ranch is always one of our richest, but also most complex, Pinot Noirs. This is attributable to numerous factors, including the outstanding job that Marcy & Craig do in farming the vineyard, the cool Green Valley (western Russian River Valley) growing conditions, and the multitude of clones that we purchase and blend together.

In fact, it is the unique clonal combination that makes this vineyard truly stand out. In 2006 we were extremely selective in which barrels made it into the cut for the final wine. The blend is 22% Clone 777, 22% Clone 114, 22% Clone 23, 22% Pommard, 6% Clone 115, and 6% Clone 2A. By blending together these different clones we are able to showcase the floral nature of Clone 23, while also giving the wine some of the herbal characteristics from the whole cluster fermentation on the Pommard clone.

The wine was aged in 83% new French oak and bottled, without fining or filtration in September of 2007. Only 239 cases were produced.

239 cases produced
Released March 2008
